

I don't want K-LOVE to go off of the air. We as a family enjoy listening to this station. It provides good wholesome, no worry radio. We currently live overseas and listen to it via internet. We are soon moving back to the states are excited to get this station on our car radio. Don't displace K-Love with another fm band. It would elimante what this area needs. Good listening, worry free, family friendly radio. If it was displaced we would have too much talk radio or bad music to choose from. This community needs good radio and K-Love provides it!!
